Calving Workshops

Join the South Dakota Grassland Coalition and partners for these informative, 1-day workshops focused on helping cattle producers determine if, when, and how they might consider adjustments to their calving program in relation to extreme weather, forage, pasture, labor, and other resource considerations.

Ipswich, SD:

Tuesday, February 18th

Chamberlain, SD:

Wednesday, February 19th

Faith, SD:

Thursday, February 20th

10 AM – 3 PM at all locations, additional details will be coming soon

Topics:

When and Where to calve: Weather, ground conditions, nutritional needs, and other considerations

Managing the Cow: Cow health and nutrition, cow size, safety, etc.

Resource Allocation and Assessment: Matching calving inputs to ranch or farm resources

Marketing Strategies: Production and marketing if a change to calving dates is made

Managing People: Considerations for family, employees, health, and time constraints

These topics will be presented to the audience by Board members and affiliates of the SD Grassland Coalition who have made adjustments and found success in their calving strategies through a holistic approach to cattle and ranch management.

Persons requiring special accommodations or materials in an alternate format or language please contact Pete Bauman (605-882-5140) oneweekpriortotheevent. NCS is an equal opportunity provider, employer, and lender.
