

Summer Tour

Sustainable Characteristics of Soil Health

July 9, 2020

Join us at Jorgensen Land & Cattle near Ideal, SD for a day jam packed with interactive tours, workshops and an acclaimed guest speaker.

Address to Jorgensen Land & Cattle:
31250 265th St, Ideal, SD 57541

Our guest speaker

Dr. Christine Jones is an Australian soil ecologist who has presented at SD Soil Health Coalition, SD Grassfed Exchange and several other farming venues on soil ecology. Jones has helped innovative farmers and ranchers implement regenerative agricultural systems that provide remarkable benefits for biodiversity, carbon sequestration, nutrient cycling, water management, and productivity.

For workshop questions contact:
Bryan Jorgensen at 605-840-9005 or
Jewell Bork at 605-530-3713

USDA is an Equal Opportunity Provider, Employer, and Lender
