

JOIN US FOR *Pasture Walk* *at the 33 Ranch*

15 JULY, 2025

8am-12pm MST

**Rasmussen-
Lehman 33 Ranch**

Join us for a tour through the north half of the Rasmussen-Lehman Ranch, where we'll take a close look at the infrastructure it takes to manage 1100 yearlings in one herd.

Badland pastures are subdivided with single strand high tensile wire and cattle are watered utilizing large storage tanks and plastic pipe. The SD Grassland Coalition Grazing Schools and the Grazing School Follow-up Consulting Program will be featured with consultants present.

NOTE

RSVP is necessary so we can plan for transportation. This will be more of a UTV/ATV drive, as we plan to access some more difficult terrain on the ranch.

Natural Resources Conservation Service
The USDA is an equal opportunity provider, employer, and lender.
