

HALF-DAY

PASTURE WALK

July 15, 2026 | Onaka, SD

Where Experience Meets Innovation

Overview

Join us on a historic Century Farm near Onaka, SD, and see how generations of stewardship, continuous learning, and adaptive grazing management are helping shape the future of this diversified beef cattle operation.

- Adaptive grazing strategies that improve pasture recovery and forage use
- Temporary fencing techniques for greater grazing flexibility
- Organic and transitioning-to-organic beef production
- Grassland conservation and management on protected acreage
- Multi-generational ranching and succession in action
- Practical lessons from producers committed to continuous improvement
- Discussion, networking, and peer-to-peer learning
