

HALF-DAY

Working Lands Workshop

Aug 18, 2026 | Prairie City, SD

Grazing for Profit, Production, & Soil Health

Overview

Join us for a hands-on Working Lands Workshop at the Juelfs Ranch to explore practical grazing strategies that can improve profitability, strengthen your operation, and build healthier, more resilient working lands.

- **Building a Contract Grazing Business:** Explore opportunities, considerations, and lessons learned when grazing livestock for others.
- **Determining Carrying Capacity:** Learn how to better match livestock numbers with available forage and make informed grazing decisions.
- **Building Soil Health Through Grazing Management:** See how intentional grazing strategies can support healthier soils, stronger forage, and more resilient grasslands.
- **Determining grazing objectives** on any given day or in a specific pasture/site.
